Jewellery Size Guide

FIND YOUR PERFECT FIT

Ring size

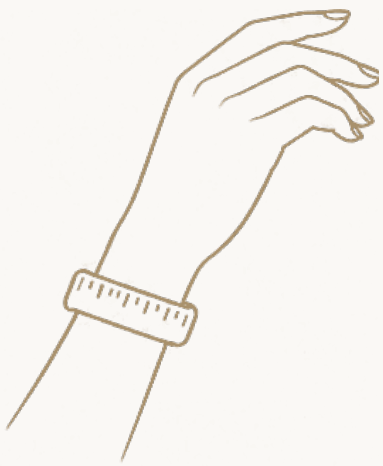

1. Measure the inside diameter of a well-fitting ring at its widest point.
2. Alternatively, wrap a thin strip of paper around your finger, mark the overlap and measure the length.
3. Match the diameter to the ring size in the table. EU ring size equals the inner circumference in mm.

Inside diameter	EU ring size
16.5 mm	52
17.2 mm	54
17.8 mm	56
18.5 mm	58
19.1 mm	60

Between two ring sizes? Consider the larger size.

Bangle size

1. Measure your wrist circumference using a measuring tape, comfortably snug.
2. Or wrap a string around your wrist, mark the overlap and measure it against a ruler.
3. Allow about 0.5–1.5 cm for comfort, depending on your preferred fit.

Wrist circumference	Suggested bangle size
15.0–15.9 cm	16 cm
16.0–16.9 cm	17 cm
17.0–17.9 cm	18 cm
18.0–18.9 cm	19 cm

Fit is personal; if uncertain, please contact us before ordering.

We are happy to help you choose your size.

Bangle measurements are indicative and should be confirmed for the specific design.
